## Summary

Enthusiastic and detail-oriented fresher with a strong foundation in Java, SQL, HTML, CSS, and JavaScript. Proficient in building dynamic and responsive web applications, developing efficient back-end logic, and managing relational databases. Passionate about applying technical skills to deliver innovative and user-centric solutions. Eager to contribute to team success through hard work, collaboration, and a commitment to continuous learning.

## Technical Skills

- **Programming Languages:** Java
- **Front-End Technologies:** HTML, CSS, JavaScript
- **Database:** SQL

## Personal Projects

### Project Title:

Personal Portfolio Website

### Project Source Code Link:

[https://bijinepallirajyalakshmi.github.io/Portfolio\\_website/](https://bijinepallirajyalakshmi.github.io/Portfolio_website/)

### Project Description:

A responsive personal portfolio website designed to showcase about me, technical skills, professional skills, projects, certifications, and contact information. This project reflects modern web development practices and highlights creative design choices for an engaging user experience.

### Used Technologies:

HTML: For structuring the content of the website.

CSS: For styling and layout, including responsive design using media queries.

JavaScript: For interactive features like dynamic text, animations, and form validation.

### What I Gain from This Project:

- Hands-on experience with creating responsive and visually attractive web designs.
- Practical knowledge of implementing interactive elements with JavaScript.
- Enhanced understanding of web performance optimization and accessibility standards.
- Demonstrated the ability to manage a project from design to deployment, making it a valuable addition to a portfolio.

## Education
